BLAUX

Rechargeable Motion Sensor Lights

USER MANUAL

Thank you for choosing the Blaux Rechargeable Motion Sensor Lights!

Now, you and your loved ones can easily navigate your home and conserve energy.

Kindly read this user manual carefully before using your new Motion Sensor Lights. Make sure to keep this document for future reference.

How It Works

The Blaux Rechargeable Motion Sensor Lights use built-in detectors and LEDs to effectively illuminate entryways, rooms, and even exterior areas. These lights can run for up to 11 hours on a single charge, giving you maximum efficiency.

Product Parameters

- Detection Distance: 10 to 26 feet (3 to 8 meters)
- Detection Angle: 120°
- Number of LED Beads: 10
- LED Life: More than 80,000 hours
- LED Brightness: 1800 - 2000 MCD/piece
- Luminous Angle: 120°
- LED Color: Warm white
- Standby Current: 39 mA
- Operating Current: 70 mA
- Power Supply: 350 mAh lithium battery
- Auto Shutoff Time: 15 seconds
- Product Size: 188 x 30 x 15 mm
- Storage Temperature: 14 - 104 °F (–10 - 40 °C)

Quick Use Guide

1. To charge your Motion Sensor Lights, simply use the included Micro USB cable. Your lights will be able to run for up to 11 hours on a single charge.

2. Attach the magnetic tape onto the desired surface (e.g. near a doorway, inside your garage, along your exterior walls). Then, attach the Blaux Motion Sensor Lights to the magnetic tape.

3. The lights will automatically turn on when movement is detected within a 10-26 foot range. They will switch off 15 seconds after you leave the room or when no movement is detected.

Note: The lights will only work if the area is dark. If there is another light source, the Blaux Motion Sensor Lights will not switch on, even if movement is detected.

Package Includes

1 x Blaux Motion Sensor Light
1x Micro USB Cable
1x Magnetic sticker
1 x User Manual

Safety Reminders

1. When plugged in, a red LED will glow. When your lights are done charging, the LED will turn green.

2. Do NOT expose the lights to extreme temperatures (below 14 °F or above 104 °F).

3. Do NOT expose your Blaux Motion Sensor Lights to overly damp conditions (ie. bathrooms) or immerse in water.
